RUNNYMEDE HEALTHCARE CENTRE is committed to putting the needs of patients and families first. We understand that enabling timely access to members of our clinical staff is important for ensuring safe, high-quality care.

To make contacting our clinical staff as convenient as possible by phone, Runnymede uses a communication system that responds to voice commands from patients and families. This brochure describes how patients and families can use the system to speak directly with a member of our clinical care team.

ACCESSING THE VOICE-ACTIVATED COMMUNICATION SYSTEM

There are two ways for patients and families to access the system:

- From a personal phone - call 416-762-7316 and select option 4

CONTACTING STAFF BY EXTENSION

If you know the 4-digit extension, simply enter it on the keypad of your phone when prompted and you will be connected.
