

Runnymede Healthcare Centre

Outbreak Update

Updated: May 20, 2025

A **Methicillin-resistant Staphylococcus aureus (MRSA)** outbreak was declared on **May 20, 2025** by Toronto Public Health on the **3-WEST** unit at Runnymede Healthcare Centre.

Until further notice, food drop-off is suspended for all patients on 3W unit and we encourage visits to be limited during this time. All visitors must wear the appropriate Personal Protective Equipment while on the unit. All rehabilitation activities for **3-WEST** patients will continue on the unit.

Please be assured that we are taking every safety measure to ensure we protect the health, and safety of all our patients, and staff.

Thank you.
