RUNNYMEDE
HEALTHCARE CENTRE

Outbreak AIert!

As of November 12, 2026, A Respiratory Outbreak has been declared on 3E unit, in consultation with Toronto Public Health, after identifying a certain number of patient cases with acute respiratory infection.

While this situation is not cause for alarm, Runnymede is taking a number of precautions to contain the outbreak and protect our patients.

During the outbreak, visitation is temporarily suspended on 3E unit until further notice, to help minimize the risk of infection transmission, prevent further spread of the outbreak on the unit, and protect the health and safety of our patients.

Families and visitors will be notified as soon as the outbreak is declared over and regular visitation arrangements can resume. We appreciate your understanding and cooperation during this time.

Thank you.
